April 28, 2021

Parents and Students:

Our current sixth and seventh grade students are beginning the registration process for 2021-2022 school year. Please take some time to visit with your students, discuss their current classes, along with goals for next year and their thoughts on elective class selections.

I encourage you to become familiar with our course catalog available on our website at rogichms.org. You will easily find the course catalog under the academics tab. The course catalog explains the vertical alignment of classes for students beginning in grade six through eighth grade along with an explanation of academic classes and all elective classes available by grade level. We stress the importance of students taking the lead in this discussion regarding registration as they set academic goals and their academic plan. Their Counselor is available to discuss with students and parents the academic plan and course options.

Please note the following requirements for students. All students will take a total of six classes as explained on the registration information.

Grade 6 - ELA, Math, Science, Computer Literacy/PE, elective 1 and elective 2

Grade 7 - ELA, Math, Science, Social Studies, elective 1 and elective 2

Grade 8 - ELA, Math, Science, Social Studies, Health/PE, and elective 1

Students wanting to take an extended day of seven classes with an early bird class may elect to do so. There is a cost of \$400 to enroll in the extended day option. Early Bird classes will begin at 8AM daily.

Students will register for electives using a Google Form to be posted in English classes. A video with further instructions will support the Google Form. Once the link and video are shared with students, they will be posted on the Rogich Website to be viewed by parents. Please take a few minutes and review with your child.

Students will make their elective choices by completing the Google Form at the following links

Incoming sixth grade: [Rogich Incoming 6th Grade Parent Letter and Registration Information](#)

Incoming seventh grade: [7th Grade Elective Form](#)

Incoming eighth grade: [8th Grade Elective Form](#)

Placement in Accelerated classes for grades 6-8, or Pre-Advanced Placement classes earning high school credit will require teacher recommendation along with a review of data including SBAC, data MAP data and final grades. In addition, we will review current academic success and student engagement and participation. We will finalize academic placement in all classes when we return in July. You will be able to view your child's schedule and placement on Infinite Campus at that time.

Students recommended for Advanced Placement courses will be invited to attend our Summer Acceleration classes to ensure readiness and course mastery with integration of new standards.

All students will be invited to attend our Summer Enrichment courses in math, English and Science to more fully demonstrate academic success as students move on to the next grade level. More information about our summer programs will be available later in May.

Please review the registration form and information with your child before they submit the Google Form. Please sign and date the form to verify your agreement and your understanding of the courses for which your child will enroll for the 2021-2022 school year. If your child changes his/her mind for their elective classes and needs to make a change to the form, they can submit it again, however **all selections will be final on Friday, May 7, 2021**. If you have questions about specific courses, please access our course catalog on our website under the academics tab.
